

Macromedia® FreeHand Level 1 (Basic)

Course Length: One Day

Prerequisites: Intro to PC's or basic computer knowledge.

Course Description

This course is designed for students to become proficient graphic design professionals. Students will learn to create eye-catching illustrations for print and the Web

Course Objectives

At the end of this course, students will be able to:

- Start FreeHand; open an existing document; explore panels, views, and the toolbox; create, save, and close a document; and exit FreeHand.
- Create basic shapes by using the Rectangle and Ellipse tools; and create polygons, stars, and spirals by using the Polygon and Spiral tools.
- Draw paths by using the Freehand and Pen tools; select, copy, modify, and delete paths; extract and retract handles on a point by using the Pointer tool; and modify images by using the Freeform tool.
- Create colors in the Color Mixer panel; add, apply, and rearrange colors in the Color List panel; and apply fills such as basic, gradient, tiled, textured, and lens fill, and strokes to objects.
- Create layers; assign objects to layers; duplicate layers; view layers in different modes; lock, unlock, merge, hide, and remove layers.
